Pre-K Apple Volcanoes

To wrap up Pre-K's apple unit, they participated in a science experiment. To start, they took out the core of their apple, poured glitter and soda inside the flesh, and dripped vinegar inside for an eruption. Seeds floated to the top and peeling melted away. These Pre-K students loved learning through experiments. How cute are they in those lab coats and safety goggles?!

The Morning Show with Justin and Bo

Every morning, Coach Mills and Coach Kilby share daily announcements including academic, lunch, and sport updates with our middle and high school students. We end with a trivia question.

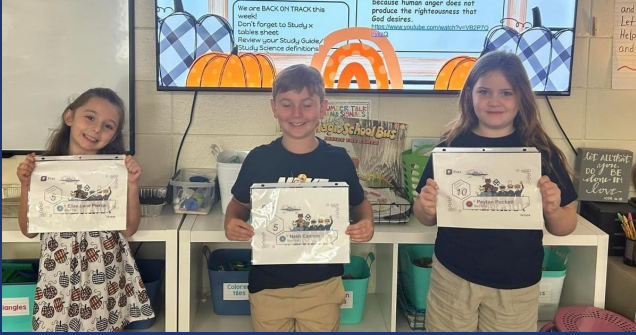

Trivia Question:

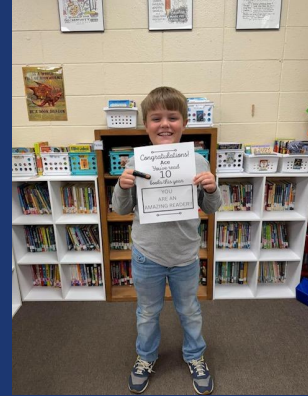

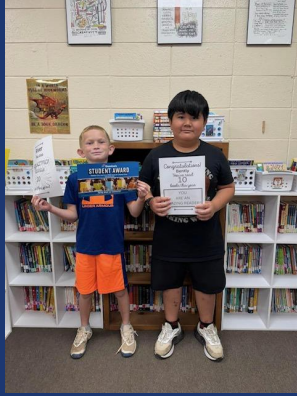

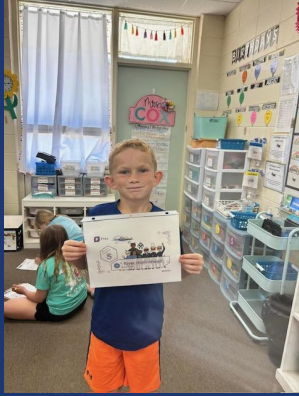

In 2014, the ice bucket challenge was created to raise awareness for what neurological disease?
